This activity is a story wheel, where you or the students can re-tell the story of Joseph's life by turning the wheel revealing Joseph's dreams one at a time through the viewing window.

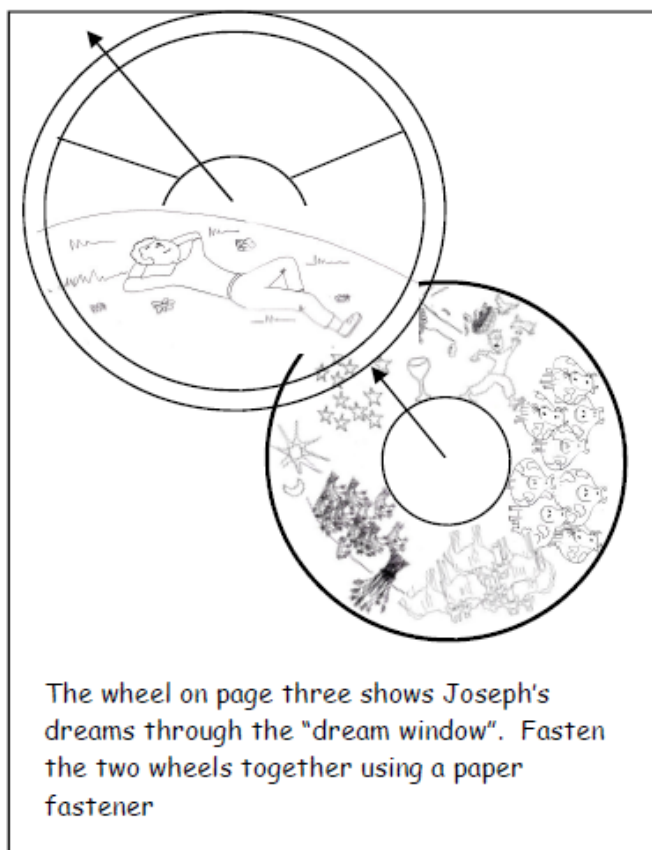

Read the Bible story of Joseph (Genesis 37-50). Use this activity to review the story of Joseph. This project emphasizes the dreams that Joseph experienced during his life—both his own dreams and the interpretation of the dreams of others.

Instructions

1. Cut out the wheel shaped objects on pages 2 and 3. On the first wheel, cut out the "dream window" in the area above where Joseph is lying.
2. Using a paper fastener (pictured here), attach the two wheels together at the center.
3. Have the students re-tell the story of Joseph using their "Dream Wheel".
4. Page 4 is an optional page without the title.
